

Paul Houdebine

PRODUCT DESIGNER

B2B SaaS · HR Tech · AI · Design system · Front-end

Sole designer of an HRIS deployed at SPIE, Fayat, RATP and Altrad. I design complex B2B products, including AI-powered interfaces, and I build part of what I design, from scoping to production.

EXPERIENCE

UpikaJob — CURRENT
JAN 2024 - PRESENT

Sole Product Designer · HRIS

- Employee reviews, skills mapping and HR dashboards: designed end to end, from user research to production.
- AI screens in the review flow: chatbot and generated summaries.
- Upikat, the AI's mascot, designed after user interviews ruled out a humanoid avatar.
- Design system (tokens, documented components) and migration from Bootstrap to Tailwind, paired with the developer.
- App redesign, from training tool to HRIS; visual identity, and the company website, designed then built solo.

Memento — Junior Art Director
2021 - 2022

Work-study · start-up · Design system · Motion

- The start-up's first designer: redesign of the app and user journey, design system based on atomic design.
- Motion design product videos, including the product trailer.

SÆGUS — Junior Design Consultant
2019 & 2020

Internships · consulting · Workshops · Prototyping

- Internal messaging plug-in designed alongside a developer, and co-creation workshops.
- UX workshop readouts (videos, experience maps) for L'Oréal, Sanofi, Société Générale, Orange and Capgemini.

Fidesio — UX/UI Designer
2018

Internship · web agency · UI · User testing

- Web and software interfaces using atomic design; contributed to a management app for Sanofi Espoir.
- "How Might We" workshops, user interviews and user testing.
